

## Cloud Phone

### **Shioupyn Shen**

#### **Founder and CEO, CloudMosa**

Shioupyn Shen is the visionary founder and CEO of CloudMosa, a leading cloud and mobile technology company. By using cloud technologies, Shioupyn and his team pioneered the “Cloud Avatar” technology, which enables affordable computing devices to deliver performance on par with high-end mainstream devices.

As CEO, Shioupyn sets the strategic direction and vision for CloudMosa, driving the company's mission to bridge the digital divide through cutting-edge technology. His leadership has been instrumental in the development of two key innovations - the Puffin Browser and the Cloud Avatar remote browsing platform. These technologies form the foundation for delivering high-performance computing experiences on low-cost hardware, making advanced technology accessible to a broader audience.

Before founding CloudMosa in 2009, Shioupyn Shen built a strong foundation in the tech industry as an early employee at Google and a veteran of Microsoft, where he contributed his expertise as a software engineer. His extensive background includes a Ph.D. in Computer Science from the University of California, Los Angeles, along with two master's degrees in computer science and electrical engineering from the University of Wisconsin-Madison, and a Bachelor's degree in Electrical Engineering from National Taiwan University.

Shioupyn's academic and professional journey reflects his dedication to creating impactful solutions that democratise access to technology, empowering millions of users worldwide.
